

I love ice cream because its refreshing on a hot day, it has so many flavors and so many toppings I love ice cream

I love Ice cream because it has so many toppings for example one time I wanted ice cream and when I went to get it there were so many amazing toppings I just decided to get all of them. also just think of ice cream with so many flavors and then think of ice cream without it I think you can see a pretty big difference on the mouth watering level.

I also love ice cream because there are so many flavors ~~for ex~~ other time I went to an ice cream store and I didn't know you could add two flavors! so its double your favorite flavors! and also if you love so many flavors then you could get 3 flavors! which is even more!

and another reason why I love ice cream is its

# Ice Cream

~~I love ice cream because it is so refreshing~~  
~~and it is so delicious~~  
So refreshing on a hot day like one time I was really hot because I was running and I got ice cream and it was like my taste buds were having a party! after that my whole body became refreshed! and last but not least its perfect for a hot day!

I  Ice Cream
